Call For Abstracts

The 5th edition of the European Equine Health and Nutrition Congress (5th EEHNC) will be celebrated with internationally recognized specialists in nutrition, exercise physiology and veterinary sciences who will discuss topics related to "Feeding the muscles". One congress day will be dedicated to the relationship between feed and muscle performance in healthy horses. The second day of the congress will focus on horses with muscle problems. The congress will take place from April 15-16, 2011 (Waregem, Belgium)

The organization invites researchers to submit abstracts related to equine nutrition, with relevance to equine health or performance. The First 10 accepted papers before deadline will receive a reduced entry fee of 50%. The best poster will be awarded by the organization.

Please submit your abstract by sending it to david.van.doorn@equine-congress.com.
